

EXPANDING, STRENGTHENING & INVESTING IN AMERICA'S CRITICAL MINERAL INDUSTRY

Because mineral security is national security

We identify and pair high quality critical minerals projects with flexible capital solutions to help companies unlock value and deliver results for all stakeholders.

GreenMet Capital is financing and enabling responsible and competitive domestic mineral supply chains as an alternative to foreign adversaries who currently dominate the market. By taking a holistic approach to capital solutions, GreenMet Capital is bridging mines with markets and connecting economic and policy opportunities to empower investors and grow the industry. With expertise across the technical, business, and policy facets of the industry, GreenMet Capital identifies and validates viable investment pipelines, influences the flow of funds, and improves investor confidence.

WHAT WE DO

Critical Minerals Project Funding

We bridge the gap between industry and investors by leveraging our technical and investment expertise to identify high quality projects and provide value for all stakeholders.

Portfolio Company Growth Facilitation

GreenMet Capital draws on its multi-faceted in-house expertise, including collaborating with Innovation and Advisory, to help our partners in industry de-risk their projects and achieve their growth goals.

Customized Business Solutions

Our experts provide flexible capital across the spectrum of project development stages to help meet the unique demands of our industry and our investors.

A STRONG, SECURE AND UNSHAKABLE SUPPLY CHAIN

MINING

Extracting mineral containing material (ore) from the earth, or occasionally other sources such as tailings or waste piles.

REFINING

Removing impurities from concentrates after processing and rendering the contained minerals into a relatively pure state for commercial application.

MANUFACTURING

Fabricating the metals and alloys into components or finished goods.

PROCESSING

Processing mined ore to separate the valuable minerals from the waste, often resulting in the production of a “concentrate.”

METALLURGY

Purifying metals, including in the “processing” or “refining” stage, and forming alloys.

FINAL PRODUCT

ELECTRIC VEHICLES

Lithium
Cobalt
Nickel

SMART PHONES

Terbium
Dysprosium
Indium

RENEWABLES

Tellurium
Arsenic
Indium

SEMICONDUCTOR CHIPS

Gallium
Germanium

Drew Horn | Founder and CEO

Drew is the former top U.S. official on strategic minerals and energy supply chain development. He is a highly regarded business leader and has served in the highest leadership assignments at The White House, Office of the Director of National Intelligence (ODNI), and the U.S. Departments of Energy and Defense. Previously, he was a strategic management consultant at one of the Big Four consulting firms. He served as an Officer with distinction in the U.S. Army Special Forces and the U.S. Marine Corps. where he gained on-the-ground international minerals experience while serving in combat.

Jen MacPherson | Head of Investments

Jennifer leads GreenMet Capital. She is a business development and investment management leader with over 10 years of experience structuring capital solutions and executing capital-intensive projects. As an investment manager at Resource Capital Funds, she oversaw a \$450 million portfolio and led deal sourcing and evaluation for Fund VII and RCF's SPAC. Her experience at Imperial Metals as a project geologist and technical manager provides valuable context in her role at GreenMet. With expertise in investment due diligence, financial modeling, risk mitigation, and investor relations paired with strong leadership abilities, Jennifer enables teams to navigate multifaceted investments while delivering value for stakeholders.

Josh Tuohy | Chief Operating Officer

Josh is a skilled operational strategy and organizational development professional. As Chief Operating Officer, he ensures there is cohesive strategic direction and connectivity across GreenMet's three business verticals. Prior to joining GreenMet, Josh leveraged these skills to achieve organizational growth and legislative and grassroots success for a workforce development industry association. He oversaw a multi-year campaign to raise awareness about the multi-billion-dollar repair backlog stymieing economic growth in and around federally managed lands, including gateway and rural communities. These efforts led to new federal investment and public-private partnerships as part of a broad long-term strategy to restore America's national, cultural, and historic resources. He is a military veteran and Purple Heart recipient.

Laurence Garten | General Counsel

With more than 35 years of success tackling complex business and legal transactions, Larry brings a diverse skill set to GreenMet as its General Counsel. Prior to joining GreenMet, Larry worked in the auction, liquidation, and remarketing space providing business development, management, marketing, and legal services to a client base that included commercial lenders, bankruptcy attorneys and trustees, public and private companies, and government agencies. Larry has structured and managed the negotiation and sale of going concerns and turnkeys manufacturing and distribution operations, industrial equipment, intellectual property, inventory, and commercial and residential real estate in multiple industries, including, automotive, printing, publishing, technology, metal working, and apparel working for private companies with operations across the United States, Canada, Mexico, Europe, and the Middle East. In his role at GreenMet, Larry is an accomplished & results-driven General Counsel providing assistance and support on legal, business, management, and operational matters.
